All plans created by Precision Property Measurements, LLC ("PPM") are made exclusively for landscaping purposes (CA, Title 4 Prof. Code 86727). All data plans created by PPM do not include the determination of any property line, and as such, do not constitute legal surveys (CA, Title 4 Prof. Code 86726.2(b)(2)). In addition, PPM surveys and plans do not constitute our engineering (CA, Title 4 Prof. Code 86726.2(b)(4)), and this should not be used for any studies or activities defined as our engineering (CA, Title 4 Prof. Code 86731). All floor plans created by PPM are intended to be used as a reference for design and construction and should not be considered a substitute for the services of a licensed structural engineer or licensed architect. PPM makes every reasonable effort to ensure the accuracy of its information based on its data. However, some of our drawings represent conditions to some degree. It is the duty of the architect, contractor, designer or other licensed professional, as a consultant to the property owner, to determine the suitability of the As-Built plans prior to construction. Measurements should be field confirmed before commencing construction. In the event that an error is found on a plan, PPM's liability is limited to the amount of the fee paid to PPM.
